INTRODUCTION

B.Tech Computer Science student proficient in React, Node.js, Java, SQL, and REST APIs, with foundational knowledge in AI/ML using Python and data analysis techniques. Experienced in building scalable full-stack applications integrated with intelligent solutions. .

EDUCATION

- **GLA University Mathura** Mathura, Uttar Pradesh
B.Tech in Computer Science (AIML and IoT) — CPI: 7.6/10.0 Expected May 2027
- **Shivalik Cambridge College** Agra, Uttar Pradesh
Intermediate — Percentage: 84.6% Completed 2022
- **Shivalik Cambridge College** Agra, Uttar Pradesh
High School — Percentage: 82% Completed 2020

PROJECTS

- **AI-Based Exam Evaluation System** GitHub
Python, ML, NLP, FastAPI
 - Built an automated subjective answer evaluation system using NLP-based similarity scoring.
 - Developed REST APIs with FastAPI for scalable backend integration and faster evaluation.
- **FoodieHub – Food Ordering Platform** GitHub | Live
HTML5, CSS3, JavaScript, Bootstrap, AWS
 - Developed and deployed a responsive food ordering platform on AWS (S3) with dynamic search and cart functionality.
 - Optimized UI/UX for smooth performance across devices.
- **Personal Portfolio Website** GitHub | Live
React.js, JavaScript, Tailwind CSS, Vercel
 - Designed and developed a responsive portfolio using React with component-based architecture.
 - Deployed on Vercel for fast global delivery and continuous deployment.

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, HTML/CSS
- **Full Stack:** React, Node.js, REST APIs
- **AI/ML:** TensorFlow, PyTorch, Scikit-learn, Keras, NumPy, Pandas, Matplotlib, Seaborn
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, AWS, Vercel, Render, Jupyter Notebook, Google Colab, Linux

CERTIFICATIONS

- **Applied Machine Learning with GenAI** July 2025
W3GRADS
- **Micro Internship – Data Analysis** July 2024
